

**Thank you for your interest in ARC presentations!
It is our privilege to collaborate & share information
with community groups, organizations, and businesses.**

Our presentations are offered on a voluntary donation basis to help cover our costs for research, materials, and our presenters' time. Any donation, big or small, is greatly appreciated, as each presentation costs upwards of \$400 to deliver. We recommend a minimum donation of \$200 to help ensure we can continue offering these valuable presentations. However, if this cost creates a barrier for you, we are more than happy to collaborate and help with your presentation request.

Presentation Requested: _____

Understanding Autism Increase your understanding of autism and explore the many strengths within the autistic community. This presentation will explore practical applications for universal design and neuro-affirming practices you can use to foster inclusivity and encourage a culture of respect for neurodiversity. Our learning objectives will cover a comprehensive strengths based overview of autism, sensory processing, executive function, and strategies for creating safe, welcoming, and comfortable communities.

Autism In The Workplace Equip your business or organization with the knowledge and tools needed to develop a truly neuroinclusive workplace. We will provide an overview of autism and neurodiversity, discuss universal design, provide examples of easily incorporated practices and explain the extensive benefits of hiring inclusively. Depending on the size and role of your team this presentation can include information beneficial to human resources, leadership teams, or your entire crew.
